

APPROVED:

the chairman of
the Association "YPPM"
Alexander Vlasov

"01" November 2018

**THE REGULATION ON
THE INTERNATIONAL CHAMPIONSHIP
OF TECHNOLOGICAL STRATEGIES IN METALLURGY
"METAL CUP. THE 4TH INDUSTRIAL REVOLUTION"**

1. GENERAL PROVISIONS

1.1. This Regulation on the International Championship on technological strategies in metallurgy "Metal Cup. The 4th Industrial Revolution" (hereinafter – the Regulations) determines the order of the Championship, the condition of the selecting the winners and the procedure for awarding them.

1.2. International Championship of technology strategy in metallurgy "Metal Cup. The 4th Industrial Revolution" (hereinafter – the Championship) – a practice-oriented project for students of vocational educational institutions and higher educational institutions (hereinafter joined – Participants).

1.3. The organizer of the Championship the Association "Youth Platform of Professional Metallurgists" (hereinafter – the Organizer)- the youth professional community of metallurgists of Russia.

The Championship is implemented with a support of industry business companies, federal and regional authorities, educational institutions, as well as the Center for Vocational Education Development and the Youth Police Agency and the implementation of social development programs in Krasnoyarsk Territory.

1.4. The methodological basis of the Championship is the case study method (case study)- one of the most effective technologies for developing practical competencies. The Championship provides for teamwork to solve the case- the real engineering problem of a particular metallurgy enterprise or another industry, using theoretical knowledge, professional experience, technical and economic calculations and logic. Solutions are evaluated by an expert jury with the participation of industry professionals. Cases are developed on the materials of companies, industry organizations, investment and promising projects.

1.5. These Regulations and additional information about the Championship website metalcup.org

1.6. The Organizer has the right to make changes and additions to this Regulation subject to the mandatory publications of changes on the official website of the Championship- metalcup.org

2. THE IDEA AND OBJECTIVES OF THE CHAMPIONSHIP

2.1. The main idea of the championship is to involve young people in innovative, creative activities, as well as international youth cooperation on the development of high-tech industries and projects, creating conditions for improving the quality of inter-sectoral communication and developing human resources.

The purpose of the Championship is to identify and support the most promising students interested in building their own careers in the metallurgical sector, developing the necessary practical (including super professional) competencies, formation of the personnel reserve of the industry, as well as strengthening the community of young professionals ready for joint project

activities and international youth cooperation.

2.2. The objectives of the championship:

2.2.1. Creation of the largest communication and vocational guidance metallurgical platform for students of engineering, technical and economic profiles of leading industrial universities with the participation of representatives of enterprises and professional communities, authorities, educational and research centers, public and expert associations.

2.2.2. Comprehensive assessment and development of engineering and systems thinking, professional, leadership and innovation potential, vocational guidance and practical development of students based on case-study technology, providing for consideration of real production problems.

2.2.3. Motivation of students to build professional career and educational trajectories in the metallurgical industry, popularization of professional activity and stimulation continuous and self-development.

2.2.4. Creating an effective tool for the formation of a personnel reserve among the youth most adapted to work in enterprises of the Krasnoyarsk Territory, investing in the development of human capital, promoting the brand of the industry in the youth, professional and scientific environment.

3. CASE-STUDY TECHNOLOGY.

3.1. A case is a document containing a description of a technological (production) task that must be solved by the participants of the Championship. The case is devoted to the real situation in the industry or in an enterprise based on specific relevant production and financial data.

3.2. The case is developed by the Organizer for relevant materials of enterprises which can serve Championship partners.

3.2.1. The author of the case (copyright holder) is the Organizer and the Partner who provided the materials for the case, the entire set of copyrights, including exclusive copyright applies to the case. Infringement of copyright entails the corresponding act (action/inaction) legal liability.

3.3. All persons (Participants, Experts, Partners, etc.) taking part at the Championship are fully responsible for the transfer for the case, information relating to it to third parties in any form and violation of confidentiality rules specified in the case.

3.4. The website of the Championship contains materials on the methodology for solving the case, contributing to the preparation of participants for the Championship.

3.5. During the solving of the case participants have the opportunity to get additional advice from the Organizer of the Championship website.

3.6. Due to the fact that the case does not have the only right solution, the case contains information for preparing the decision. The Participants of the Championship have the right to additionally use any sources of information. In case of discrepancies in the information, it is necessary to be guided by the case data.

4. ORGANIZER'S STATUS.

4.1. Organizer rights:

4.1.1. Determine the conditions of the Championship (order, form, stages, dates, case topics, evaluation criteria, etc.)

4.1.2. To collect applications for participation in the Championship, to check the compliance of the design and content of applications with the requirements and conditions stipulated by these Regulations.

4.1.3. Use and process the personal data of the Participants provided during registration, as well as transfer them to the Championship Partners (request additional information from the participants if necessary).

4.1.4. To determine the methodology for forming the composition of the expert jury, to coordinate the work of the jury.
